

TCS NQT 2026 Assessment

Overview By – Mr. Durgesh

StudyHub

here's a breakdown of the likely assessment/hiring pattern for 2026 (for freshers/campus /

Part / Section	What's tested
Foundation (mandatory for all)	Numerical Ability (Quant), Verbal Ability (English), Logical / Reasoning Ability. (PREP INSTA)
Advanced (mandatory for those aiming for Digital / Prime roles)	Advanced Quantitative/Reasoning + Coding (programming) questions. (Scribd)

off-campus) based on recent (2024,- 2025) actual patterns ± expected 2026 updates. Use this especially as you are B. Tech (AI/ML) and preparing for placement — relevant for you

Here's a clear **table summarizing the TCS 2026 assessment pattern** based on recent NQT trends and

Section	Sub-Topics / Focus	No. of Questions	Time (mins)	Level / Notes
Foundation	Quantitative Ability	20–25	25	Basics of arithmetic, algebra, percentages, ratio-proportion, profit-loss
	Verbal Ability / English	25	25	Reading comprehension, grammar, synonyms, antonyms, sentence completion
	Logical / Reasoning Ability	20	25	Puzzles, seating arrangement, series, blood relation, coding-decoding
Advanced (Optional / for Digital/Prime roles)	Advanced Quantitative / Logical	15	25	Higher-order reasoning, time-speed-distance, probability, permutation & combination
	Coding / Programming	1–2	90	Data structures, algorithms, basic programming logic, coding problems (Python/Java/C++)
Total Duration	—	81–87 (approx)	190	If both Foundation + Advanced attempted; Foundation mandatory for all

expected updates:
